

Tomek Links

• Tomek Links

If 2 samples are nearest neighbours, and from a different class, they are Tomek Links.

Removes the Tomek Link from the majority class

- Cleaning
- Final dataset shape varies
- Boundary is noise

• Tomek Links

Minority
class

Tomek Links

Remove entire
Tomek Link

• Tomek Links

Removes noise
→ improves
performance

Miss classifies
hard cases

Imbalanced-learn: Tomek Links

```
: # create data
X, y = make_data(sep=0.5)

# set up Tomek Links

tl = TomekLinks(
    sampling_strategy='auto', # undersamples only the majority class
    n_jobs=4) # I have 4 cores in my laptop

X_resampled, y_resampled = tl.fit_resample(X, y)
```
